

# Transition - Laminate Correspondence

This list helps confirm whether a color is still available and shows its updated name and code. If a color has been discontinued, the closest alternative is provided. We recommend reviewing any substitution with physical samples to ensure alignment with your expectations.

## Similarity Score Legend

90% = The laminates may still be compatible in coordinated designs, but they will not appear identical side by side

75% = The laminates share the color tone, but differ in pattern structure

50% = The laminates share some general characteristics, but differ significantly in tone and pattern structure

\* Same color, but the finish is different

\*\* These colors are discontinued, but kept temporarily to ease the switch
